OUR PRODUCTS

Customer Relationship Management System (CRM)

CRM software is one of the most important sales tools in sales reps' arsenal. It is more than a contact management system. If used to its full capacity, a CRM allows sales reps to spend more time with customers and potential customers. The more time spent with customers, the more deals are closed, and the more loyal customers remain.

Key Features

1. Add Lead
2. Assign Members
3. Lead Follow-up
4. Lead Stages
5. Funnel
6. Lead PAC
7. Conversations
8. Quotation to Client
9. Agreements
10. Team Allotted
11. Convert Lead to Project
12. Project Status
13. Project Remarks
14. Update Task Dependency
15. Payment and Delivery Milestone
16. Follow-up Reminders
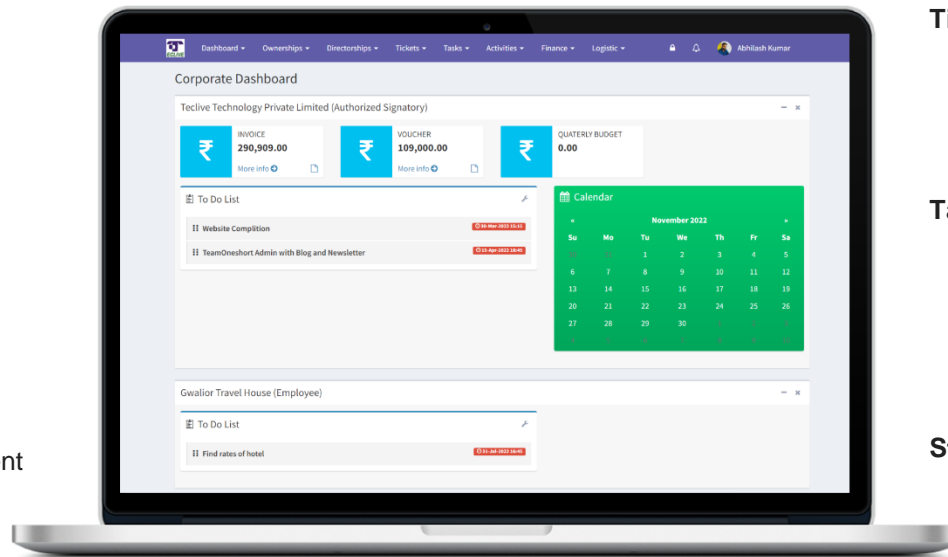

Enterprise Resource and Plaining System (ERP)

ERP refers to a type of software that organizations use to manage day-to-day business activities such as accounting, procurement, project management, HR activities , Internal Tasks and communication.
